Visitor Badges: New Procedure

Please note that the visitor badge system will be replaced over the weekend of March 14. From Monday, all guests must be registered online at least one day before their visit.

Reception staff will print badges on arrival and collect them at departure. Contractors working on site for more than a week will receive a temporary access card valid for thirty days.

Questions about the new procedure can be sent to the facilities team, who will also run two short training sessions for assistants on March 12 and 13.
